

# Optical Express

## Mr. Colman Kraff

MD  
Ophthalmic Surgeon

Mr. Kraff is committed to advancing new technologies in the field of ophthalmology and helped to pioneer laser vision correction. He is a member of the Optical Express International Medical Advisory Board (IMAB) and of various affiliated bodies and societies such as the International Society of Refractive Surgery and the American Academy of Ophthalmology.

Mr. Kraff is actively involved in research projects relating to laser vision correction and in February of 1991, as part of a five-site, United States FDA clinical trial team, Mr. Kraff successfully performed the first excimer laser procedures in the Chicagoland area using the VISX Excimer Laser. Mr. Kraff and the Kraff Eye Institute have devoted their practice to specialising in laser vision correction and continue to be the lead United States investigative site for all VISX LASIK FDA clinical trials, performing the very first hyperopic LASIK and Wavefront-guided custom treatments.

He actively lectures and teaches doctors throughout the world and is one of three primary Physician excimer laser trainers in the United States and has a teaching appointment at Northwestern University Medical School and is an Attending Physician at Northwestern Memorial Hospital. He is the author of many academic papers and publications and is highly sought after to give professional and scientific presentations across the world.

His dedication to his profession and patients is evident from his vast clinical experience and attendance at seminars and conferences as speaker and delegate.

### Academic & Professional Affiliations

- American Academy of Ophthalmology (AAO) - Fellow
- American Society of Cataract and Refractive Surgery (ASCRS) - Member
- International Society of Refractive Surgery (ISRS) - Member
- American Medical Association (AMA) - Member
- Chicago Ophthalmologic Society (COS) - Member
- Chicago Medical Society (CMS) - Member

### Honours and Awards

- 2000 Visx Stars Award
- 1999 Visx Stars Award
- 1998 Visx Stars Award
- 1989 Outstanding Senior Resident

---

**Optical Express. Vision For a Better Life.**

Corneal Dystrophy".

## Research

- Principal Investigator Alcon Phakic Anterior Chamber IOL. Multiple center FDA clinical trial. June 2006- Present.
- Principal Investigator Visx Star S4 VSS Wavefront Guided Treatment of Presbyopia, Single US site FDA Clinical Trial, Fall 2004-Present.
- Principal Investigator Visx Star S4 VSS Wavefront Guided treatment for Monovision/Myopia FDA clinical trial, summer 2004-present.
- Principal Investigator Visx Star S4 VSS Wavefront Guided treatment of Hyperopia and Mixed Astigmatism FDA Clinical Trial, Fall 2003 - present.
- Principal Investigator Visx Star S3 / S4 Wavefront Guided Treatments for Myopic Astigmatism FDA Clinical Trial, April 2001-Present
- Principal Investigator Visx Star S2 LASIK Mixed Astigmatism FDA Clinical Trial, June 2000- Present
- Principal Investigator Visx Star S2 LASIK Hyperopic Astigmatism FDA Clinical Trial, July 1999-Present
- Principal Investigator Visx Star PRK Hyperopic Astigmatism FDA Clinical Trial, June 1998- Present
- Principal Investigator Visx Star PRK Hyperopia Trial February 1997- Present
- Co-Investigator Visx 20/20 Excimer Laser Phototherapeutic Keratectomy FDA Phase III Trial Photorefractive Keratectomy FDA Phase III Trial February 1991- Present
- Co-Investigator Novatec Light Blade Photorefractive Refractive Keratectomy Correction of Myopia Phase IIA June 1995
- Co-Investigator Sunrise Technology Thermal Keratoplasty for Refractive Procedures Correction of Hyperopia Phase II-b Study December 1996
- Co-Investigator Autonomous Technology Correction of Myopia, Astigmatism, and Hyperopia July 1996
